CENSUS OF VICTORIA, 1901.

PART IX.—OCCUPATIONS OF THE PEOPLE.

* * The classification used in tabulating the Occupations of the People in Victoria, which differs but slightly from that followed in other Australian States, is a purely *economical* one. It groups together all persons, in whatever capacity engaged, who are more or less dependent for a livelihood on any one profession, trade, industry, or other pursuit; thus, the persons classed as "woollen manufacturers" embrace not only the proprietors, overseers, and workers in woollen mills, but also the clerks, labourers, carters, and others employed in connexion with the industry; the term "draper" or "grocer" embraces principals, assistants, clerks, and others employed in or attached to drapery or grocery establishments.

For some purposes (*e.g.*, the influence of occupation on the death-rate), this classification will be found altogether unsuitable. This was recognised by the Australian Statisticians in conference, who were unanimous in agreeing to also compile an *alphabetical list*, in which would be brought together all occupations of a like nature without regard to the industries in which engaged. In such a list all *clerks* would be placed in the same category, all *carters* in another, all *labourers* in another, and so on; whilst *servants* would be shown separately from their *masters*. This list has been compiled, it is believed, in all the other States; but, it is to be much regretted, could not be done in Victoria, owing to lack of necessary funds.

In this "Part" children of unspecified ages, with occupations, have been included under the Age-group 5 to 15.

The letters (N.O.C.), wherever they appear, stand for "Not otherwise classed."

Classification numbers in brackets indicate the order in other Australian States.

NOTE.—The letters N.O.C., wherever they appear, stand for "Not otherwise classed." Classification numbers in brackets indicate the order in other Australian States.

* The total number of children unspecified as to age was 878, viz.:—502 males and 376 females. Of these it has been assumed that 162 males and 121 females were under five years, and 340 males and 255 females between five and fifteen years of age.

† The following persons, in regard to whom a difficulty arose have been classified as "On own account":—Capitalists, property-owners, house or land owners or proprietors, old-age pensioners returned as householders (all other old-age pensioners have been counted as Dependents).

‡ The following persons have been classified as "Wage-earners":—Clergymen, members of religious orders, such as nuns, sisters of charity, &c.; students of the professions, arts, and sciences; and pensioners (ordinary).

§ Including dealers who were also in a minor degree manufacturers. See Table IV., Section A.

|| Including manufacturers who were also in a minor degree dealers. See Table IV., Section B.

¶ Administrative officers only. Government officers performing duties of a technical, commercial, or professional nature are classed under other heads.

** Exclusive of hotel, restaurant, &c., keepers. See Class II.

†† Except primary producers grouped under Class VI.

NOTE.—On the Householder's Schedule each person was asked when entering occupation to write "M" if a manufacturer or maker, "S" if a dealer, trader, &c., but if both to write "MS" if maker chiefly, or "SM" if seller chiefly. Persons returned "MS" were accordingly classified as MANUFACTURERS (Industrial Class), but those returned "SM" as DEALERS (Commercial Class). But in the other States all persons who were both manufacturers and dealers were grouped as Industrial. Hence, to obtain a fair comparison for Victoria, it will be necessary to deduct the cases of "SM"—sellers or dealers chiefly—from the Commercial Class and add them to the Industrial.
